

“High Quality
Custom-made
Furniture”

HOW WE STARTED?

Efficiency, dedication and passion, these reasons strive Queens Arts and Trends Corporation to offer ALL and MORE of furniture services and designs to all our clients. This aim started in the year 2010, where furniture companies are booming in their respective field of expertise.

However, starting in furniture industry with well established competitors in every corner of the country, caused us a clear threat of accomplishing our goal.

As the corporate world opens new opportunities to small companies like ours, the quality of our service and products, made its own way of having our company inclined with the biggest manufacturers in the country.

This very opportunity opened the doors of new ideas to strengthen our company's goal, to offer all and more in this field. Realizing the limitations of the renowned companies, QAT offers a wide variety of services and designs in innovation/renovation.

Today, Queens Arts and Trends Corporation remains a driven and goal oriented company, committed to providing high quality, fashionable designs and affordable furniture solution to make top end your office/home more comfortable and elegant.

We specialize in providing sustainable solutions for the domestic renovation and innovation including flooring (carpet, veneer), dry walling, kitchen cabinet and many more.

From small beginnings, some 10 years ago, the business is renown its name as Queens Arts ad Trends Corporation to claim our place in furniture industry in the Philippines as one of the most competitive and fast growing company. With a team of full time sales and designers, supported by highly efficient administration and management, our mixture of experience, youthful energy and total commitment to quality makes Queens Arts and Trends Corporation best choice for you

ABOUT US

Queens Arts and Trends is a manufacturer of quality furniture in the Philippines. We customize different types of furniture for corporate and residential spaces. We work closely with our clients to ensure that the aesthetic and efficiency of our products fit their needs. Our products are well-crafted from planning, design, actual

We believe that a furniture
can make or break every space.

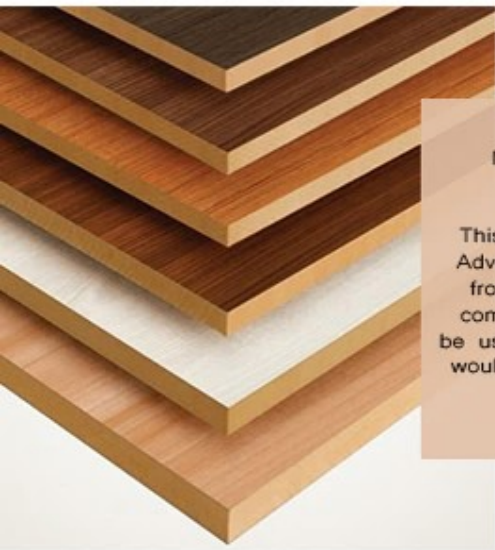

That's why we take pride in working collaboratively
with our clients to provide them the satisfaction they
deserve when it comes to their furniture.

We provide and manufacture wide variety of furniture
for corporate or residential spaces.

Our products are mainly customized to cater the pref-
erences of our clients from fitting, design and func-
tionality.

WHAT WE DO

Medium Density Fiberboard (MDF) and Melamine Faced Chipboard (MFC)

This is widely used for office table and storage cabinet. Advantages are it comes with several designs to choose from solid colors to woodgrains finish and it's cheaper compared to other finishes. Disadvantage is that it can't be used if the atmosphere of the area where the furniture would be located is moistened or prone to exposure to any liquid form (eg., water, sauces or chemicals).

High Pressure Laminated (HPL)

This is commonly used for kitchen cabinet, restaurant table, conference table, pantry table, dining table and school desk and training table. It comes with different designs from solid color to woodgrains and it is used with either ordinary plywood or marine plywood.

Veneer

This is commonly used for executive furniture (eg, tables and cabinets) or conference table. Using veneer will make any furniture more elegant looking and classic vibe compared to other finishes, but it's more expensive too. This is a thin layer of wood used with either ordinary plywood or marine plywood and it comes also with different designs of woodgrains.

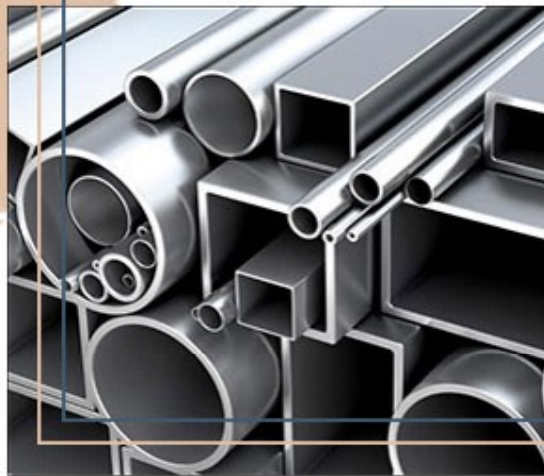

Glass

This is commonly used for executive furniture (eg, tables and cabinets), conference tables, dining tables and restaurant tables. We use tempered glass and ordinary glass depends on where it will be use. It comes with different shades (frosted, backpainted or graphicote) We have 6 mm, 9mm and 12mm thick.

Metal

This is commonly used for legs and base of sofa, office furniture (office tables and chairs), dining tables, restaurant tables, training tables and school desk, executive furniture (eg, tables and cabinets), conference tables, fiberglass furniture and center tables. We have stainless steel finish, chrome finish, powder coated finish and epoxy paint finish that comes with different shades.

Fabric and leatherette

This is commonly used for customized upholstery of sofa, office furniture (office chairs and office partition) restaurant booth seats, accent chairs and customized furniture
